- Seeking a challenging career in a reputable institution where my skills, Education and proficiency allow me the opportunity for growth.

## Education:

- University : Minia University
- Specialization : Chemical Engineering
- Graduation year : 2012
- Grade : Good (65.3)
- Project : Manufacturing of bricks from sludge
- Project degree : very good (83.5)

## Training experiences:

1. Helwan iron & steel industry, summer 2009.
2. Abu korqas sugar company, summer 2010.
3. Helwan fertilizers company (HFC) in Egypt, summer 2011.

## Skills:

### 1- Language skills:-

#### 1- Arabic:-

Mother language

#### 2- English:-

Very good command, written & spoke

### 2-computer skills :-

1. Microsoft Office (Word, Excel, PowerPoint).
2. Fast typing in English and Arabic.
3. Internet.
4. Sketch up pro.

## Courses:

1. Local English course at armed forces language institute (MODLI).
2. IT course (internet, word, excel, access, PowerPoint, windows, IT).
3. Water treatment technology (purification, desalination, sewage treatment and industrial waste water treatment).
4. Application of solar energy course.

## Personal skills:

1. Good communication and leadership skills.
2. Ability to learn new tasks quickly.
3. Ability to take decisions.
4. Ability to deal with different customers with different ideologies.
5. Ability to grasp new ideas & new technologies at short time.

## Interests:

1. Reading
2. Traveling
3. Surfing on the Internet

## Working experiences:

Working as operator & office Engineer with R&D Tech center at:

- a. Gray water project operator.
- b. Solar Energy applications.
- c. Pectin production.
- d. Subcritical (oil extraction).
- e. Drying of medical & aromatics plants project.
- f. Water desalination using solar Energy.
- g. Share at cross-flow heat exchanger design.

It gives me great honor to take part in the group work in your organization.
